

NASSCD Guide to Celiac Sessions at DDW® 2018  
June 2 – 5, 2018  
Washington, DC

Date / Track	BASIC SCIENCE	Clinical Practice / Stomach and Small Bowel Disorders	Pediatric GI
<p><b>June 2</b></p>	<p><b>Rm145 B, 3:00pm-3:30pm</b>  <b>Problems Designing Trials in Celiac Diseases and Potential Remedies</b>—Joseph Murray</p> <p><b>Rm 145A, 4:00pm-5:30pm</b>  <b>AGA Postgraduate Course Case-Based Session – Approaches to Celiac Disease and Non-Celiac Gluten Sensitivity</b> -- Sheila Crowe, Guy Weiss -----Additional fee/registration required.</p>	<p><b>Ballroom A 1051am-11:01am</b>  <b>AMG 714 (ANTI-IL-15 MAB) Halts the Progression of Aberrant Intraepithelial Lymphocytes in Refractory Celiac Disease Type II (RCD-II): A Phase 2A, Randomized, Double Blind, Placebo-Controlled Study Evaluating AMG 714 in Adult Patients With RCD-II/PRE-EATL</b></p>	<p><b>Rm 140 10am-11:30am</b>  <b>Celiac Epidemiology</b> (Moderator: Alberto Rubio-Tapia)          *Screening in the General Pediatric Population for Celiac Disease: Autoimmunity Screening for Kids (ASK)          -Marisa Gallant</p>
<p><b>June 3</b></p>			
<p><b>June 4</b></p> <p><b>Annual Member Meeting 6:00pm at the Renaissance Washington DC Renaissance Ballroom West A</b></p>	<p><b>Rm 102A</b>  <b>Mechanisms of Reaching Tolerance in Celiac Disease</b>          8am-830am Bana Jabri</p> <p><b>Reactions to Wheat: Gluten Vs. ATIS</b>          830am-900am Detlef Schuppan</p> <p><b>Development of a Novel In Vivo Model for Celiac Disease in Mice with a Fully Humanized Immune System</b>          9am-910am Manuel Encalada Ventura</p> <p><b>Search for and Identification of Serum Markers of Celiac Disease Activity</b>          910am-920am Erika Monguzzi</p>	<p><b>Rm 140 10am-11:30am</b>  <b>Celiac Epidemiology</b> (Moderator: Alberto Rubio-Tapia)          *Positive Celiac Serology and Permissive Genotype in Older Patients: Significant Association with Osteoporosis and Celiac Diagnosis at Follow-Up—Michael Potter</p> <p>*Expanding Immune Reactivity Against Gliadin at TTG Epitopes Long Precedes Celiac Disease Diagnosis—Rok Seon Choung</p> <p>*Gender-Based Differences in Screened Populations in Celiac Disease: A Systematic Review and Meta-Analysis—Claire Jansson-Knodell</p>	<p><b>Rm 140, 10am-11:30am</b>  <b>Celiac Epidemiology</b> (Moderator: Alberto Rubio-Tapia)          *Screening in the General Pediatric Population for Celiac Disease: Autoimmunity Screening for Kids (ASK) –10am-10:15am, Marisa Gallant</p>

Date / Track	BASIC SCIENCE	Clinical Practice / Stomach and Small Bowel Disorders	Pediatric GI
		<p>*From Self-Reported Wheat Intolerance to Non-Celiac Gluten Sensitivity Diagnosis: An Italian Community-Based Study— Barbara Zanini</p> <p>*The Rise in Incidence of CD Has Stopped Despite Increasing Application of CD Serology Testing: A Population-Based Study—Rok Seon Choung</p> <p><b>Rm102A, 12:30pm-1:45pm</b>  <b>Meet-the-Professors Luncheon-Approach to the Management of Non-Celiac Wheat/Gluten Sensitivity (Additional fee/registration required)—</b>  <i>Benjamin Lebwohl and Daniel Leffler</i></p> <p><b>Rm 151A, 2pm-330pm</b>  <b>Celiac Disease: Treatment and Monitoring</b> (Moderators: Joseph Murray and Benjamin Lebwohl)          *Is a Gluten-Free Diet Always Good for You? – Benjamin Lebwohl</p> <p>*Emerging New Therapies for Celiac Disease—Ciaran Kelly</p> <p>*AMG 714 (Anti-IL-15 MAB) Ameliorates the Effects of Gluten Consumption in Celiac Disease: A Phase 2A, Randomized, Double-Blind, Placebo-Controlled Study Evaluating AMG 714 in Adult</p>	

Date / Track	BASIC SCIENCE	Clinical Practice / Stomach and Small Bowel Disorders	Pediatric GI
		<p>Patients with Celiac Disease Exposed to a High-Dose Gluten Challenge—Markku Maki</p> <p>*Determination of Gluten Grams Ingested and Excreted by Adults Eating Gluten-Free (Doggiebag)—Jocelyn Silvester</p> <p><b>Rm 145A, 4pm-530pm</b>  <b>Celiac Disease: Diagnosis Best Practices</b> (Moderators: Sonia Kupfer and Alberto Rubio-Tapia)            *Biomarkers for Celiac Disease—Edwin Liu</p> <p>*Optimal Practices for the Biopsy Diagnosis of Celiac Disease—Marie Robert</p> <p>*Characterizing Refractory Celiac Disease—Govind Bhagat</p> <p>*Round Table Discussion with Experts of Celiac Disease—Peter H.R. Green and Edwin Liu</p>	
June 5		<p><b>Rm 140</b>  <b>Natural History of Potential Celiac Disease: Factors Predicting Evolution to Villous Atrophy</b>—8:30am – 8:45am, Riccardo Troncone</p> <p><b>Best of Celiac Disease and Gluten-Related Disorders</b>—10:36am-10:54am, Julio Bai</p>	

Date / Track	BASIC SCIENCE	Clinical Practice / Stomach and Small Bowel Disorders	Pediatric GI
		Rm 140 Induction of Tolerance for the Prevention or Treatment of Food Allergies—3pm-330pm, Robert Anderson	

### *Poster / e-Poster Sessions and Papers*

**June 2, 2018**

**Duodenal Mucosal Impedance is Altered in Patients with Celiac Disease - *Dhyanesh Patel***

**Incidence of Celiac Diseases Autoimmunity and Celiac Disease in the General Population: Teddy Study - *Marisa Gallant***

**June 3, 2018 -- Celiac Disease and Gluten Related Disorders I**

**Duodenal and Fecal Microbiota Before and After a Gluten-Free Diet (GFD) in Patients with Celiac Disease, Non-Celiac Gluten Sensitivity and Controls - *Xaira Rivera Gutierrez***

**Antibodies Against Neo-Epitope of Microbial and Human Transglutaminases in Celiac Disease - *Aaron Lerner***

**Galectin-1 Expression Delineates Response to Treatment in Celiac Disease Patients and Suggests a Potential Novel Therapeutic Target - *Victoria Sundblad***

**A Randomized, Placebo-Controlled Pilot Study of Montelukast in Celiac Disease - *Sonia Kupfer***

**Total Annexin V+ Circulating Microvesicles Differentiate Non-Celiac Gluten Sensitivity from Celiac Disease Patients and Healthy Controls - *Konstantinos Efthymakis***

**Dietary Gluten Intake and Risk of Microscopic Colitis Among US Women Without Celiac Disease: A Prospective Study - Po-Hong Liu**

**Gene Expression Signatures Differentiate Non-Celiac Gluten Sensitivity from Celiac Disease Patients and Controls and May Potentially Contribute to Disease Diagnosis - Konstantinos Efthymakis**

**Circulating Microvesicle Patterns are Different Between Non-Celiac Gluten Sensitivity Patients and Healthy Controls - Konstantinos Efthymakis**

**Alternative Grain Intake Among Adults with Celiac Disease: A Prospective Cross-Sectional Study - Anne Lee**

**Gluten Immunogenic Peptide (GIP) Excretion Shows Evidence of Dietary Transgressions in Asymptomatic Treated Celiac Disease Patients - Julio Bai**

**Incidences of Malignancy in Celiac Disease in US Population: A 13-Year National Inpatient Sample Analysis - Zubair Khan**

**Non-Celiac Wheat Sensitivity and Celiac Disease is Strongly and Independently Associated with Inflammatory Bowel Disease: A Population Based Study of 3542 Randomly Selected Subjects - Michael Potter**

**Capsule Enteroscopy in Patients with Complicated Celiac Disease: A Prospective Randomized Comparison between Axial and Lateral/Panoramic-Viewing Systems - Luca Elli**

**Microbial Proteases Increase Sensitivity to Dietary Antigen Through Par-2 Signaling – Alberto Caminero Fernandez**

## **June 4, 2018 -- [Celiac Disease and Gluten Related Disorders II](#)**

**Widely Viewed YOUTUBE Videos Related to Celiac - Corey Basch**

**Micronutrient Deficiency at Celiac Disease Diagnosis Predicts Class II Obesity at 5 Years - Amanda Cartee**

**Effect of Verification Bias on Screening for Celiac Disease: A Systematic and Meta-Analysis - Isabel Hujoel**

**Diagnostic Accuracy of Point of Care Tests for Diagnosing Celiac Disease: A Systematic Review and Meta-Analysis - Prashant Singh**

**Foregoing the Duodenal Biopsy for Celiac Disease Diagnosis Among Adults in the United States: Results of a National Survey - Andrew Joelson**

**Low Rates of Screening for Celiac Disease Among Family Members: Analysis of Algorithm-Identified Familial Relationships** - *Adam Faye*

**Epidemiology of Acute Pancreatitis in Celiac Disease in the United States Between 2012 and 2017: A Population-Based National Study** - *Sonali Khurana*

**Patterns of Marijuana Use Among Celiac Disease Patients: A Population Based Analysis of the National Health and Nutrition Examination Survey (NHANES)** - *Rita Abdelmessih*

**Prevalence of Colorectal Adenomas Among Recently-Diagnosed Adult Celiac Disease Patients** - *Juan Lasa*

**Inflammatory Biomarkers as Predictors of Mucosal Healing in Patients with Celiac Disease** - *Rita Abdelmessih*

**Anxiety and Depression is not Increased in Newly Diagnosed Subjects with Celiac Disease** - *Joseph Murray*

**Clinical Profile of Celiac Disease: Epidemiological Prospective** - *Badr Aljarallah*

**Prevalence of Nutritional Deficiencies in Follow-Up of Adults Diagnosed with Celiac Disease: A Prospective Study** - *Allison Love*

**The Use of Abdominal CT Imaging to Determine Splenic Length in Patients with Celiac Disease: A Potential Modality to Evaluate Splenic Dysfunction** - *Alma Guerrero Bready*

**Iron-Deficiency Anemia and Prevalence of Celiac Disease-A Systematic Review with Meta-Analysis** - *Srihari Mahadev*

**Prevalence of Primary Biliary Cholangitis-Related Autoantibodies in Patients with Celiac Disease** - *Elias Spyrou*

**Physician Diagnoses and Self-Diagnosis of Patients with Celiac Disease in the Internet Era** - *Tawnya Hansen*

**Diagnostic Utility of Endoscopic Duodenal Bulb Biopsy for Celiac Disease: A Systematic Review and Meta-Analysis** - *Thomas McCarty*

**The Prevalence of Celiac Disease is Increased in Patients with Barrett's Esophagus and is Associated with Early Development of Dysplasia** - *Maria Inés Pinto Sánchez*

**Serum Immunological Mediators are Associated with Anemia in Patients with Celiac Disease. A Prospective Follow-Up Assessment** - *María Laura Moreno*

**Accuracy of Serologic Markers in the Screening of Celiac Disease in Children with Type I Diabetes Mellitus: A Retrospective Analysis from a Tertiary Center** - *Mary Ayers*

**Canadians with Celiac Disease May Inadvertently Choose Unsafe Foods Due to Misinterpretation of Product Labels** - *Jocelyn Silvester*

**Determination of Gluten Consumption by Celiac Disease Patients on a Gluten-Free Diet - Jennifer Sealey Voyksner**

**Correlation of Histologic, Serologic, and Symptomatic Measures of Celiac Disease Patients Participating in a Latiglutenase Clinical Trial - Jennifer Sealey Voyksner**

**Simvastatin as a Biomarker for Intestinal Villous Health for Recovering Celiac Disease Patients - Jennifer Sealey Voyksner**

**Autoimmune Liver Disease in Adult Celiac Patients: Cross Sectional Study - Azita Ganji**

**Markers of Non-Celiac Wheat Sensitivity in Patients with Myalgic Encephalomyelitis/Chronic Fatigue Syndrome – Melanie Uhde**

**Undiagnosed CD is Associated with Increasing Calorie Intake Indicating the Possibility of Hidden Malabsorption: Results from the 2009-2014 National Health and Nutrition Examination Surveys – Rok Seon Choung**

**June 5, 2018**

**Development of Culinary Nutrition Education Intervention for Teenagers and Adults with Celiac Disease Using the 6-Step Design Process - Randi Wolf**

**Prevalence of Low Lumbar Spine Bone Mineral Density in Pediatric Patients with Celiac Disease: A Retrospective Cohort Study - Jennifer Webster**

**Dietary Intake Study in Children (DISH) with Celiac Disease - Alison Sue**
